

BE(Electrical and Biomedical) Course Hierarchy for Students Enrolled In the Electrical and Biomedical Engineering Program Before August 31 2011

LEGEND

- Introductory Electives
- Advanced Electives
- Coverage Electives
- Compulsory
- Free Elective
- 1st Semester Course
- 2nd Semester Course
- Year Long Course

Incompatible Courses:

New Course	Incompatible Old Course(s)
COMS4105	COMS3100, COMS4100
CSSE2010	CSSE1000
CSSE2310	COMP2303
CSSE3010	CSSE4001
CSSE4010	CSSE2000, CSSE3000
CSSE4011	CSSE4003
ELEC3004	ELEC3600
ELEC4403	ELEC3401
ELEC4630	ELEC3601, ELEC4600
ENGG1100	ENGG1000
ENGG1300	ELEC1000
ENGG1400	ENGG1010
ENGG4810	ENGG3800

- This is intended as a guide only. Students must check the transition arrangements at <http://student.itee.uq.edu.au/2012changes/BE/Electrical&Biomedical/>.
- This mud map shows only prerequisites on the BE (electrical & biomedical) course list, and does not show recommended pre-requisites, or pre-requisites which are not on the course list. Students should check all pre-requisites carefully to ensure they have the required background before enrolling in a particular course.
- Where courses appear under different categories, (i.e: COMP2303), that course may only count under one of those categories.

Double Major in Electrical and Biomedical Engineering
 Students must choose #60 Electrical & Biomedical Engineering courses + #4 Free Electives:

- All of the **orange (#48)**.
- Two (#4) of the **blue** (old B1 Introductory or new level 3 compulsory courses) electives.
- One (#2) of the **green** (old B2 Advanced or new level 4 part B) electives.
- Three (#6) of ENGG4900, the **yellow** (Coverage) electives, the **green** (Advanced) electives or the **blue** (Introductory) electives (any course from the old part B1, B2 or B3 or the new part B that hasn't been counted). Students who counted CSSE2000 as part of the **orange** compulsory courses, must include at least one of COMP2304, COMP2303 or CSSE2310 here.
- Two (#4) Free Electives (including MATH1050 if no Maths C)
